

Corporate Profile

Established in 1980, Sin Hong Hardware Pte Ltd has expanded rapidly to become one of the largest stockists, distributors and manufacturers of a wide range of industrial fasteners, and a specialist in Standard, Non-standard and Customised Fasteners.

Our Retail, OEM and Import & Export business divisions, which are dedicated to the different needs of our customers, help to create comprehensive distribution channels, whether in small or large scale manufacturing or mass production.

As a leading fasteners supplier in the market, we formed joint ventures as well as established alliances and partnerships around the world to distribute, source, purchase and manufacture an extensive range of fasteners products. Through the years, we earned recognition as a trusted one-stop fasteners solution provider.

With our continual commitment to quality control and service excellence, we established the ISO quality system procedure in our Quality Assurance Department to perform systematic incoming inspection and outgoing verification before delivery.

Our reliable logistic infrastructure and warehousing storage also include a special Logistic Supply System for managing small and large batches of fasteners. Through these efficient processes, we aim to further reduce administration costs and to provide prompt, on-time delivery to our customers.

Our Mission

To uphold a positive and upright attitude towards our clients, rates, services and product quality at all times.

Our Vision

We strive to be the most preferred supplier, measured by the quality of our products and services at the absolute lowest cost, and determined by our important asset, our customers. Our success is measured by a network of satisfied customers.
